

The Select Pro from Warner features an innovative body with flush-mounted doors and concealed hinges. Warner developed a patented, concealed stainless steel hinge system to deliver the best customer value, while retaining an aerodynamic look. The Select Pro provides more storage, better security and improved durability. It is the perfect blend of added style, corrosion resistance and increased storage at the right price.

**Select Pro**

### Clean **Aerodynamic** Look

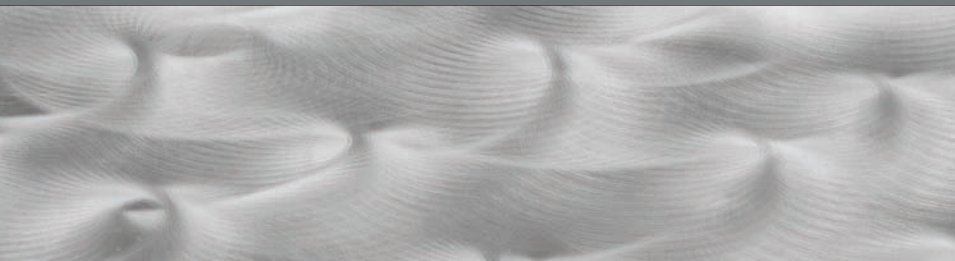

- Streamlined look at standard utility body price
- Flush-mounted doors give superior look and increased security
- Rounded top adds to the finished look

### Added **Weather Protection**

- Compression T-style latches pull doors into rubber to keep weather out of compartments
- Flush-mounted doors provide added weather protection

WARNER SPECIALIZES IN BUILDING CUSTOM UNITS TO MEET CUSTOMERS' SPECIFIC REQUIREMENTS.

## Maximum Organized Storage

- Removable panel between compartments allows customized storage of long objects
- Divider trays and adjustable flat shelves provide storage compartment flexibility
- Easy door replacement/removal in minutes without need of tools
- Lift-and-lock tailgate gives quick one-handed access to cargo items
- Spring door holders keep doors in position during work and transport

## Enhanced Durability and Safety

- Concealed hinges are protected from the elements and allow for less grinding of galvanneal coating during production
- Difficult to pry open flush-mounted, 16-gauge double-panel doors
- Polished fuel-fill enhances the look and eliminates paint chipping from fuel runoff
- Punched bumper provides increased safety and grip with superior corrosion resistance
- Exclusive 5-year warranty guarantees construction and quality
- A60 galvanneal steel with 50% more corrosion resistance than industry standards

## Popular Options

- Flip-top construction for additional storage
- Recess in rear bumper for trailer hitch
- Sliding roller tops for security of items in loadspace
- Ladder racks
- Drawer units for customized storage
- Enclosed top construction for additional storage and security
- Compartment lighting for work at night
- Additional shelves and divider trays
- Taillights in rear compartments in lieu of bumper
- Master locking system for added security and ease-of-use
- Slam latch tailgate
- Pipe racks
- Through box between compartments for large article storage
- Grab handles for added safety
- Hold-downs in floor
- J-style hooks (fixed style, swivel style and three way locking)
- Rope rail for organization in loadspace

LET US WORK WITH YOU TO  
DESIGN YOUR NEXT WORK TRUCK.
