STRONGER BOXES **FASTER** DELIVERY **BETTER** PRICE

With Windsor Steel, you don't have to choose between quality, speed and price. We cut costs, not features. With better, more efficient designs & processes, we deliver the best American made boxes at a better price in half the time.

Boxes Ship in Half the Time

Our stock boxes ship in 24 hours. Custom orders are shipped in 2 to 3 weeks.

The Best Quality Made in the USA

All boxes are 100% made in the USA with quality that is second to none.

Priced Competitively

We relentlessly pursue more efficient designs and processes to deliver a great box at a great price.

Stronger Steel

Our boxes are constructed with 20% thicker 13 gauge (top) rather than standard 14 gauge (bottom) material, for a stronger, more dent and damage resistant assembly.

Stainless Steel Hardware

Rust and corrosion resistant stainless steel fasteners, hinges and pins keep the box looking great for years to come.

Superior, Tighter Lock

With no exposed fasteners, the stainless steel t-handle pulls the door tight. A lock cover repels moisture, ensuring continued operability in freezing weather.

Better Weather Resistance

A deep well rain gutter on all sides and a durable automotive bulb seal keeps gear safe from moisture and road grime.

Down Swing Door (WB series)

These down swing door tool boxes are an economical option perfect for under-body mounting, or low height top-body applications where gear will be accessed from at or below eye level.

Single Door (Under-body)

Sizes: 18" h x 18" d
24" h x 24" d

Lengths: 24", 30", 36",
48", or 60"

Double Door (Top-body)

Size: 16" h x 13" d

Lengths: 48", 60", 84",
90", or 96"

Custom sizes and configurations are also available.

With no exposed fasteners, the stainless steel t-handle pulls the door tight. A lock cover repels moisture, ensuring continued operation in freezing weather.

A deep well rain gutter on all sides and a durable automotive bulb seal keep your gear safe from moisture and road grime.

The heavy gauge chain supports are fully adjustable to hold the door open at virtually any angle you desire.

Down Swing, Flush Door (WA series)

For a smooth, clean look, the WA style box features an inset door, flush mounted with the box surface. Just like the WB box, the WA is perfect for under-body mounting, or low height top-body applications, where gear will be accessed from at or below eye level.

Single Door (Under-body)

Sizes: 18" h x 18" d
24" h x 24" d

Lengths: 24", 30", 36",
48", or 60"

Double Door (Top-body)

Size: 16" h x 13" d

Lengths: 48", 60", 84",
90", or 96"

Custom sizes and configurations are also available.

The deep rain gutter helps keep moisture out of your box and off your gear when accessing in wet weather.

Rust and corrosion resistant stainless steel fasteners, hinges and pins keep your box looking great for years to come.

The stainless steel t-handle pulls the door tight. A lock cover repels moisture, ensuring continued operation in freezing weather.

Up Swing Door (WP series)

These upswing door boxes work great in applications where access is at or above eye level. The door swings up and out of the way, supported by gas struts while accessing the contents inside.

Single Door (Under-body)

Sizes: 18" h x 18" d
24" h x 24" d
Lengths: 24", 30", 36",
48", or 60"

Double Door (Top-body)

Size: 16" h x 13" d
Lengths: 48", 60", 84",
90", or 96"

Custom sizes and configurations are also available.

The door swings up and out of the way, held up by gas struts while accessing the contents inside.

Rust and corrosion resistant stainless steel fasteners, hinges and pins keep the box looking great for years to come.

With no exposed fasteners, the stainless steel t-handle pulls the door tight. A lock cover repels moisture, ensuring continued operation in freezing weather.

Side Swing Door (WF series)

The side swing door box is great for a wide range of applications. There's no center support to get in the way, for a clean, unrestricted opening.

Double Door

Sizes: 18" h x 18" d
24" h x 24" d
Lengths: 24", 30", 36",
48", or 60"

Custom sizes and configurations are also available.

Without a center support to get in the way, the side swing doors open to reveal a full-width, unrestricted opening. The durable bulb seal keeps out moisture and road grime.

With no exposed fasteners, the stainless steel t-handle pulls the door tight. A lock cover repels moisture, ensuring continued operation in freezing weather.

Rust and corrosion resistant stainless steel fasteners, hinges and pins keep the box looking great for years to come.

Cargo Box (WG series)

For locations where you need access from above, these large cargo boxes can handle an incredible volume of gear. They're lockable, weather tight, and built to last.

Top Door

Sizes: 82" w x 55" h x 24" d
92" w x 58" h x 28" d

Custom sizes and configurations are also available.

The door swings up and out of the way, held up by gas struts while accessing the contents inside.

The stainless steel keyed paddle handles locks your cargo securely. The door pulls tight, sealed with a durable neoprene seal to keep your gear safe from moisture and road grime.

An offset hinge allows the box to flush mount against any vertical surface without restricting door travel.

Trailer Tongue Box (WT series)

Put that unused space on the trailer tongue to work with these convenient tongue boxes. The angled sides fit perfectly on a standard trailer tongue while the offset hinge allows mounting against vertical surfaces without restricting door travel.

Top Door

Sizes: 30" w x 14" h x 14" d
36" w x 24" h x 28" d

Custom sizes and configurations are also available.

The door swings up and out of the way, held up by a gas strut while accessing the contents inside.

An offset hinge allows the box to flush mount against any vertical surface without restricting door travel.

The top is fully sealed with durable weather stripping to protect your gear from moisture and road grime.

Backpacks (WR, WL & WJ series)

These huge, heavy-duty backpack boxes can hold an incredible amount of gear.

They feature full opening side swing doors on both ends, and optional incorporated mounting brackets.

The tapered top increases visibility when using truck side mirrors.

WR Backpack (right)

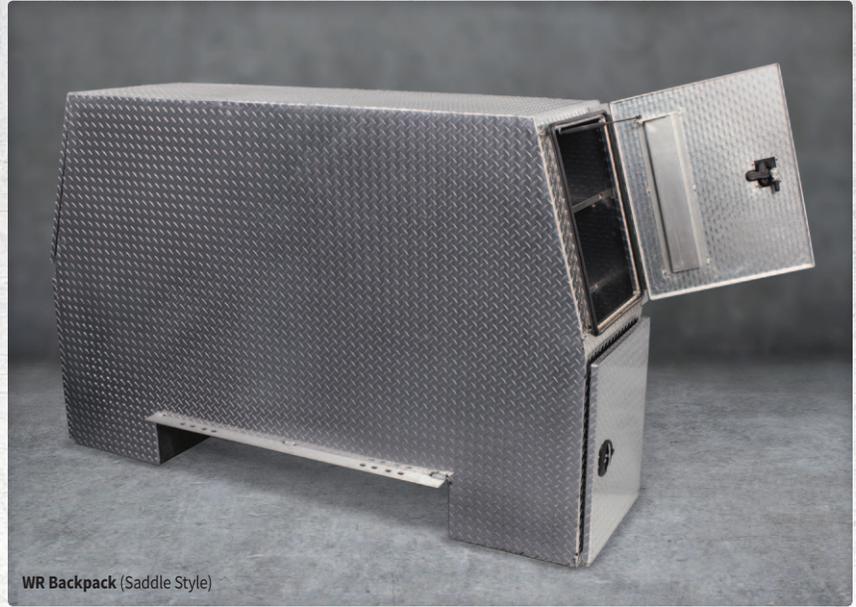

Sizes: 82" w x 55" h x 24" d
92" w x 58" h x 28" d

WL Flat Backpack (below)

Sizes: 82" w x 55" h x 24" d
92" w x 58" h x 28" d

WJ Non-tapered Backpack (not shown)

Sizes: 96" w x 48" h x 24" d
Custom sizes and configurations are also available.

WR Backpack (Saddle Style)

The WL Flat Backpack has all the same great features as the WR, but with a flat bottom to mount to a flat bed surface.

Strong gas struts hold the door out of the way while accessing the contents inside. The durable bulb seal keeps moisture and road grime at bay.

Full length shelves and two rope hooks help organize content and maximize usable space.

Hinges, pins, fasteners and the handles are all rust and corrosion resistant stainless steel to keep the box looking great for years to come.

Options

Mounting Brackets

The universal 24" x 24" mounting brackets can be mounted on the top, bottom or back, and can be trimmed to fit 18" boxes.

Shelf Kits

All side-entry boxes can be fitted with optional shelf kits to better organize and utilize storage space.

Materials & Finishes

With any of our boxes, choose the standard ultra tough oyx-bond finish or other options shown here.

We also do custom powder coated colors to match virtually any finish you desire.

13 Gauge Steel, Powder Coated Textured Black

Powder Coated Textured Black with Stainless Door

0.125" Diamond Bright Aluminum
