TC-500 HEAVY DUTY TRUCK FLATS

100% Tempered Aluminum Alloy

LED
Lights
Standard

100% heat treated aluminum alloy construction for maximum strength, lowest possible weight and great lifelong appearance. All materials are 6061-T6 extrusions with 37,000 PSI minimum tensile strength. The floor is constructed of aluminum alloy plank extrusions that provide rigid reinforcement every 5", and have a tongue-in-groove joint on top to take heavy punishment in stride. The standard longills are 4" high x 2 1/4" wide structural aluminum channel, with optional 6" or 8" heights available for hoist, or extra heavy duty applications. Rub rails are a custom shape providing 5 1/2" side height with extruded ribs for added strength and improved appearance. The rub rails, as well as the front and back rails, have stake pockets cut into the top. Bed corners are mitered for safety and improved appearance. Body comes complete with flush mounting 2 1/2" grommet style clearance, marker, and I.D. FMVSS lights with wiring harness.

Model 94x9 with optional Cab Guard & Tailboard

FLOOR CONSTRUCTION
Plank extrusions provide rigid reinforcement every 5".

RUB RAIL
5 1/2" custom shaped rub rail with mitered corners & stake pockets cut into the top.

CAB GUARD
Profile shape with protected window area. 5 1/2" frame matches rub rail appearance. Bulkhead of 1/8" bright diamond plate.

TAILBOARD
10" high, bright diamond plate with wrap around corners. Includes license plate light, 4 1/2" stop, tail, turn and backup lights.

Body Capacity Rating: TC-500s have a load rating of 200 lb/SF evenly distributed load.

**NOTE: Your truck, dumper & payload should not exceed the G.V.W. rating or axle rating usually found on the inside of the doorframe on the driver's side.*

features that let your truck work harder
