

# BRANDFX™

# ALL-COMPOSITE TOPPERS & INSERTS

Adding More Utility and Function to Work Trucks

**BRAND|FX™**  
EVERLAST TRUCK BODIES™

The worldwide leader in lightweight composite work truck bodies.

# THE VERSATILITY & FUNCTIONALITY NEEDED FOR THE TOUGH JOBS

Five out of the top six United States service fleets turn to BrandFX™ for the dependable performance of all-composite work truck bodies. Lightweight and tough, the BrandFX advanced all-composite toppers and inserts feature zero-corrosion, zero-oxidation construction that will not dent, warp, or rust — even under the most demanding applications.

## Composite Work Toppers

BrandFX composite work toppers offer improved hauling and storage capabilities for most work trucks. The high-strength composite is ultra-lightweight compared to standard steel construction, reducing the stress on tires, brakes and suspension systems. This lightweight innovation also delivers added fuel savings and the option to either downsize chassis or accommodate increased payloads.

In addition to upgraded accessibility and versatility, work toppers can be easily removed and reinstalled on most chassis including popular Chevrolet, RAM, Ford, and GMC models. With all the benefits of durable, all-composite construction, BrandFX work toppers are the industry's hard-working, long-lasting work truck solution.

Available in **PLUS-TOP™** design for greater storage space or sleek **LOW-PROFILE** design.

\* applies to inserts only

## CORROSION-RESISTANT

BrandFX delivers lightweight and corrosion-resistant toppers and inserts without sacrificing strength and dependability. This built-in protection against corrosion damage is one more improvement over standard steel and aluminum toppers that increases the overall life cycle value of BrandFX composite products.

## Composite WorkPod™ Inserts

WorkPod™ Inserts are purpose-built to deliver advanced mobile storage with more work space, accommodating all popular bed sizes for Chevrolet, RAM, Ford, and GMC models. They combine the open interior work space of vans with convenient, exterior-accessible compartments. These practical, cost-effective work solutions eliminate the need for standard commercial vans by upgrading to the pickup platforms most service technicians prefer, and allow for off-road capability and upgrades as well

BrandFX WorkPod inserts frequently outlast the chassis they are mounted on, no matter how long they've been installed, when it's time for a new vehicle these inserts can be easily transferred from one work truck to another — with no unloading required — which leads to significantly increased life cycle value. The zero-corrosion, zero-oxidation composite also means BrandFX WorkPod Inserts stay in good or excellent condition, so service fleets can benefit from a more sleek, professional appearance.

Available in **PLUS-TOP™** design for greater storage space or sleek **LOW-PROFILE** design.

BrandFX advanced all-composite toppers and inserts provide more utility with quicker, easier accessibility. Standard built-in features, ranging from organized interior space to secure exterior compartments, include premium shelving, drawer, cabinet and lighting options. These features all combine to provide more convenience, improved efficiency, and optimized mobile storage space across an entire service fleet.

### THE SMART INVESTMENT Benefits of Toppers/Inserts

- Better gas mileage
- Easily remounts onto new chassis when needed
- Customizable features/options
- Versatile storage options
- Retains its appearance
- Better resale value

BrandFX advanced all-composite toppers and inserts provide a higher degree of utility that offers greater convenience and improved overall efficiency. Built for quick and easy accessibility, we combine standard built-in features with a full selection of optional equipment for a customized product that lasts a lifetime.

## **BRANDFX™** THE LIFE CYCLE VALUE LEADER™

BrandFX is the worldwide leader in lightweight composite Work Truck bodies – providing line bodies, service bodies, inserts, tonneau covers, and toppers to many of the world's largest utility and service fleets. BrandFX EverLast composite bodies are proven to offer the highest life cycle value, delivering 20-plus years of effective service while maintaining their quality finish and appearance. Because BrandFX believes in American-made quality, the company manufactures all of its truck bodies in the U.S.
