

INTRODUCING... ULTIMATE FX™

THE FIRST AND ONLY ALL-COMPOSITE BODY AND UNDERSTRUCTURE FOR SERVICE TRUCKS

Using the latest advances in composite chemistry and structural design, the R&D team at BrandFX™ has developed the UltimateFX™. This all-new, all-composite service body + understructure combination means fleets can have it all — a lightweight, corrosion-free service truck that's tough as steel.

THE LIGHTEST — AND BEST LOOKING — WORK TRUCK ON THE MARKET

As the only all-composite service body + understructure combination on the road, the UltimateFX is also the industry's lightest. The significant weight reduction delivers long-term savings by reducing fuel and maintenance costs. Additionally, the unique all-composite construction means the UltimateFX stays in pristine condition longer, for a sleek and professional appearance that's easy to maintain.

TOUGH AS STEEL, WITH MORE ADVANTAGES

The UltimateFX all-composite body + understructure offers the greatest life cycle value available on the market. This patented, innovative combination is lighter than aluminum, yet meets the same standards of toughness as steel. All these benefits come together to provide service fleets the strength, flexibility and long-lasting performance needed to handle the toughest jobs in the roughest conditions.

FOR THE TOUGHEST JOBS AND THE ROUGHEST CONDITIONS

ZERO-CORROSION, ZERO-OXIDATION™ FOR MAXIMUM WEATHER RESISTANCE

The UltimateFX is built to handle the harshest environments while maintaining its durability and high-strength performance. The unique proprietary manufacturing process features zero-corrosion, zero-oxidation composite construction, providing maximum weather resistance that prevents rust and similar forms of deterioration. This innovative process guarantees BrandFX maintains complete control over product quality and material consistency, all while exceeding environmental safety standards.

BRANDFX™ THE LIFE CYCLE VALUE LEADER™

BrandFX is the worldwide leader in lightweight composite Work Truck bodies – providing line bodies, service bodies, inserts, tonneau covers, and toppers to many of the world's largest utility and service fleets. BrandFX EverLast composite bodies are proven to offer the highest life cycle value, delivering 20-plus years of effective service while maintaining their quality finish and appearance. Because BrandFX believes in American-made quality, the company manufactures all of its truck bodies in the U.S.
